

# FONTAINE ARMOR

Part replacement from top side cuts repair  
times from hours to minutes!

**Simple lock design  
simplifies maintenance—**  
All locking components can  
be replaced in an hour or  
less without removing the  
fifth wheel from the truck!

- Mounts directly onto competitive fifth wheel brackets and doubles the competitor's warranty!
- Specifically designed and tested to meet the rigorous demands of yard truck applications
- Stronger than competitive products  
– 80k lbs vertical load
- Patented design only available from Fontaine
