

The “savings” from using **non-genuine** parts can be **very expensive**

Keep it Genuine Fontaine!

Make sure the Fontaine logo and certification emblem are on the box and the Fontaine brand is on the Jaw & Wedge before you install your parts!

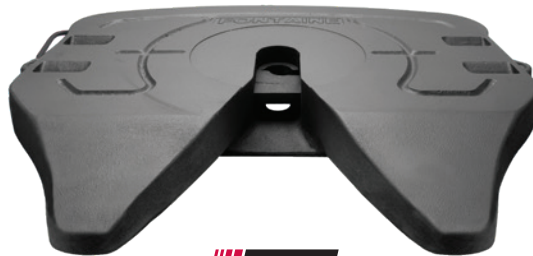

Non-genuine components do not have the Fontaine brand on the box or parts. Failures caused by their “pressed-in” studs falling out can be dangerous.

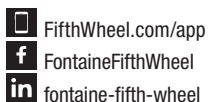

Using non-genuine private label parts...

- Voids Fontaine Warranty/Liability
- Increases likelihood of durability issues and failure

Buy only genuine parts built and backed by Fontaine®
